01. HAH OILFIELD MACHINE SHOP:

HAH has all the quality systems in place for design, planning, manufacturing and quality monitoring & traceability to ensure that HAH products match the highest quality & reliability standards similar to any International major in this field. A well-established Quality System from materials receipt to products delivery ensures consistent quality at all levels of the activity. The required inspection and test facilities are installed in house.

HAH Machine Shop holds the API Licenses **ISO 9001:2015 – 2893, Q1 – 2816, 5CT – 1809, 6A – 1780, 7-1 – 1289, 16A – 0464 & 16C – 0364.**

The company complies with all the legal, statutory and regulatory requirements.

HAH machine shop is also certified for below mentioned **DP MASTER Premium connections** on accessory equipment's (DPM License number- **DPML-KW-002**).

- DPM-ST Connections
- DPM-HIGH TORQUE Connections

CNC 16" HOLLOW SPINDLE LATHE

HAH Machine Shop is equipped with covered bays each having its own overhead cranes, CNC lathes, Mega bore lathe machines, boring machines, milling machines, shapers, valve repair & test equipment, stabilizer grinders, welding and cutting equipment & warehouse areas.

The machine shop is indulged in manufacturing and repairing of API products - cross overs, saver subs, adapter spools, double studded spools, studded as well as flanged tees & crosses, spacer spools, diverter spools, drilling mud crosses, weld neck flanges, blind flanges, segmental flanges, companion flanges, bull plugs, well head equipment, manifolds, choke & kill manifolds and other related products as per API standards. Our services include the recut of API connection on the drill string, drill stem crossovers, casing & tubing and wash pipes.

HAH can also provide customized solutions to our clients who have non-standard manufacturing needs.

Thread root cold rolling Services:

As a part of the machine shop scope, HAH provides the Cold root rolling solutions to expensive, stressed and failing thread roots in drill string connections. By burnishing the thread root in rotary shouldered connections, cold root rolling prolongs the service life of your drilling equipment

Cold rolling improves the strength properties of processed surface, increases the resistance to abrasion and cracking

02. HAH ELECTRICAL MOTOR REWINDING SERVICES:

As a part of the machine shop scope, electrical motor rewinding and overhauling services are carried out. Motors are inspected and tested as per customer requirements.

Induction Motors/Slip Ring Motors Rewinding, Repairing and Overhauling

Up to 150 HP (rewinding, repairing, bearing change and testing).

150 up to 1500 HP (overhauling service, wire winding, bearing change).

AC Blower Motors Up to 150 HP (rewinding, repairing, bearing change and testing)

DC Motors Up to 1085 HP (overhauling service and bearing change)

Alternators Up to 1225 KW (overhauling service and bearing change)

Vibrator Motors Up to 2.5 KW (rewinding, overhauling, bearing change and testing (only dry motors))

Site Services Our site services for Motors, Transformers & Generators include, site testing, Installation and commissioning, Life assessment studies and site overhauling.

Testing Our current test equipment is as follows:

Various hand held multimeters, tachometers etc.

Balancing – 10 tons capacity

03. HAH DRILLING JAR SERVICES:

HAH facility is authorized for the *Wenzel, Cougar and Schlumberger* down hole tools. With HAH certified technicians and calibrated NOV Breakout units and respective OEM spares in our stock, HAH can provide the full range of service needs for the drilling jars & shock tools. In conjunction, the additional machine shop services available give us the ability to conduct full repair and maintenance with API new connections that may be required whilst in process servicing is being conducted. HAH services the drilling jars and shock tools as per the OEM requirements.

The services includes overhauling, testing and inspections. Equipment necessary to the drilling jar and shock tools services are well established and the reporting is done as per OEM requirements. HAH maintains the good stocks of OEM spares in our facility which fulfills the customer urgent requirements.

04. HAH FABRICATION SERVICES:

The company has ASME “U” and NB “R” licenses authorizing the manufacturing and repair of pressure vessels. Fabrication services product includes mud pump systems, Poor Boy Degasser, Suitcases, Pipe Racks, Frac tanks, cement tankers, acid tankers, cement silos, water tanks, fuel tanks, low bed trailers, gooseneck trailers, various supporting skids and a range of fabricated equipment for the oil drilling industry.

05. HAH – OVERHAUL, REPAIR & PRESSURE TESTING SERVICES:

HAH's Repair and Services restore your product to factory standards by replacing wear out/damage parts with genuine parts. Our services either on/off site makes it easy to manage the entire process and product from getting a cost effective solution in compare to buy new product, keeping in view about its performance and safely requirements.

To ensure consistency of products and concerned components functional requirements all of them process thru stated and recorded testing procedures. Testing of product arrays carried out by applying hydro pressure up to 50,000 PSI to verify and validate as per the requirements.

Our excellent state of the art pressure testing facility holds safety credentials such as tough & thicken concrete structure of wall, ballistic proof transparent glass window for observing successful testing of products.

06. HAH – NON DESTRUCTIVE TESTING SERVICES:

Our HAH NDT Inspection Division has been the excellent service provider in Kuwait and provides quality non-destructive testing for all drilling contractors and major operators. HAH's well qualified NDE personnel and highly standard equipment's can assure our customers that each and every inspection is conducted to not only meet but exceed the stringent specification and industry requirements for this service.

HAH maintains a large fleet of state-of-the-art inspection equipment, as well as a competent staff of engineers and technicians capable of repair, maintenance and renovation of HAH's tools and equipment. Moreover, all of HAH's operators and inspectors are certified to ASNT TC-1A Levels, Drop object train of trainer & LEEA certification program.

HAH is ISO – 9001, 14001 & 18001 certified and maintains internationally recognized Standard Operating Procedures (SOP's), HSE and Quality management systems.

Our Inspection services are provided accordance with international industry standards namely: API, T. H. Hill DS-1, NS, ASME, ASTM, LEEA, DROPS, and ABS.

- ***NDT INSPECTION SERVICES:***

- Ultrasonic Testing, Magnetic Particle Testing, Liquid/dye Penetrant Testing & Visual / Borescope Inspection.

- **OCTG INSPECTION:**

- Drill Pipe, Tubing, Casing and Sucker Rod, HWDP, Drill Collars and Subs, Motors, Jars and other down hole tool.
- Complete Rig Inspections.
- Ultrasonic Test shear wave inspection for slip area and welding.

- **OUR SERVICES**

- Pipe Tally, condition monitoring and pipe management.
- NDT for Rig-Floor handling tools and rig parts inspection.
- Welding inspection.
- Load testing and lifting equipment inspection.
- Hull gauging, wall thickness measurement and evaluation for offshore rigs.

HEAT TREATMENT SERVICES:

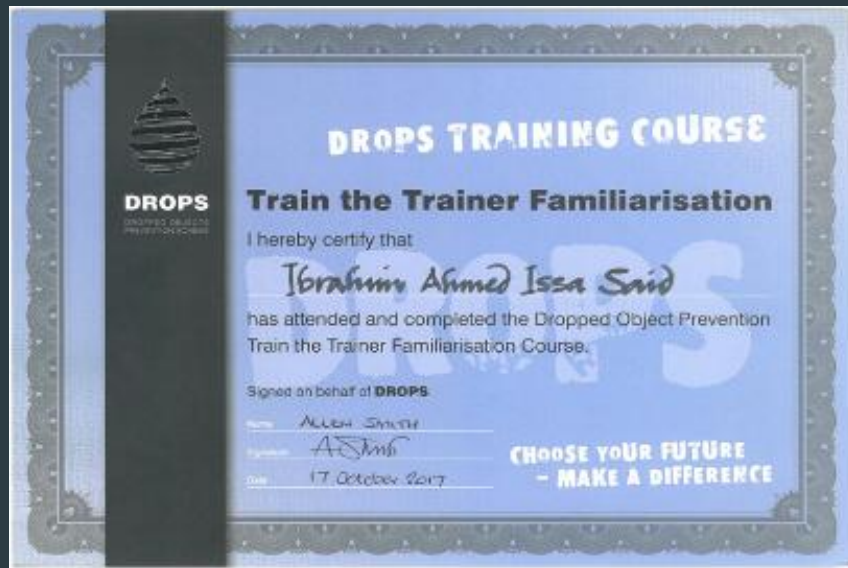

As qualified and experienced specialist in heat treatment, HAH offers a board range of services. Our advanced knowledge and technology, combined with a flexible and customer-oriented approach, allow HAH to provide versatile solutions. All heat treatments are carried out in-house, or onsite in temporary mobile furnaces. HAH operates in compliance with the latest quality standards and certifications.

DROP OBJECT SURVEY:

Historically, dropped objects have played a principal role in oil and gas incidents. This situation should not be tolerated or allowed to continue. We must eliminate this type of incident. Dropped objects is a collective issue and not just an operator or a facility owner's problem; it is a common problem for everyone in our industry.

HAH is an active member at Drops society, our qualified and experienced surveyors are capable to perform Drop survey for any facility according with last international standards to help eliminating any type of Drop hazards.

API MONOGRAM CERTIFICATES (API 5CT, 7-1 6A, 16A & 16C)

Certificate of Authority to use the Official API Monogram
License Number: 6A-1780 ORIGINAL

The American Petroleum Institute hereby grants to
**INHERITANCE OF HAMAD AHMAD ABDUL LATEEF AL-HAMAD
 COMPANY GENERAL TRADING & CONTRACTING**
 Plot #78, Block #03
 Shuaiba Industrial Area
 West Shuaiba, Ahmadi
 Kuwait

the right to use the Official API Monogram® on manufactured products under the conditions in the official publications of the American Petroleum Institute entitled API Spec Q1® and **API-6A** and in accordance with the provisions of the License Agreement.

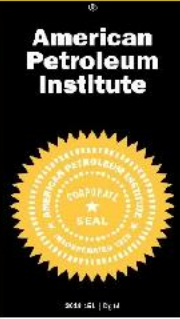

In all cases where the Official API Monogram is applied, the API Monogram shall be used in conjunction with this certificate number: **6A-1780**

The American Petroleum Institute reserves the right to revoke this authorization to use the Official API Monogram for any reason satisfactory to the Board of Directors of the American Petroleum Institute.

The scope of this license includes the following: Cross-Over Connectors, Blind and Tee; Flanges, Tees and Crosses, Threaded Connectors, Top Connectors, Adapter Spools and Spacer Spools at PSL 1, FEL 2, PSL 3; Bump-Ups; Valve Removal Plugs

QMS Exclusions: No Exclusions Identified as Applicable

Effective Date: OCTOBER 4, 2019
Expiration Date: MAY 18, 2023

2019 11 | 1514

Vice President of Global Industry Services

ASME 'U' STAMP & NB 'R' STAMP CERTIFICATES FOR PRESSURE VESSELS

The American Society of Mechanical Engineers

CERTIFICATE OF AUTHORIZATION

The named company is authorized by the American Society of Mechanical Engineers (ASME) for the scope of activity shown below in accordance with the applicable rules of the ASME Boiler and Pressure Vessel Code. The use of the certification mark and the authority granted by this Certificate of Authorization are subject to the provisions of the agreement set forth in the application. Any construction stamped with this certification mark shall have been built strictly in accordance with the provisions of the ASME Boiler and Pressure Vessel Code.

COMPANY:
 Inheritance of Hamad Ahmad Abdul Lateef Al-Hamad Co.
 General Trading & Contracting
 Plot #78, Block No. 3, West Shuaiba
 Shuaiba Industrial Area
 Kuwait

SCOPE:
 Manufacture of pressure vessels at the above location and field sites controlled by the above location (This authorization does not cover impregnated graphite)

AUTHORIZED: March 29, 2018
EXPIRES: June 25, 2021
CERTIFICATE NUMBER: 38,474

 Richard Robertson
 Board Chair, Conformity Assessment

 Managing Director, Conformity Assessment

**THE NATIONAL BOARD
OF
BOILER & PRESSURE VESSEL INSPECTORS**

Certificate of Authorization to Register

This is to certify that

**Inheritance of Hamad Ahmad Abdul Lateef Al-Hamad Co.
General Trading & Contracting
Plot #78, Block No. 3, West Shuaiba
Shuaiba Industrial Area
Kuwait**

is authorized to apply the "NB" mark and register boilers, pressure vessels or other pressure retaining items with the National Board.

The scope of Authorization is limited to items manufactured in accordance with:

ASME Designator(s): U

Issue Date: June 25, 2015

This Certificate of Authorization to Register will remain in effect as long as the manufacturing organization holds a valid Certificate of Authorization issued by the American Society of Mechanical Engineers.

Executive Director 

**THE NATIONAL BOARD
OF
BOILER & PRESSURE VESSEL INSPECTORS**

Certificate of Authorization

This is to certify that
